turning them into an unsightly brown patchwork. However, with UV-resistant synthetic turf, homeowners and businesses can maintain lush green spaces all year long without the worry of their turf fading or discoloring due to the extreme sun exposure.

One advantage that stands out about UV-resistant synthetic turf is its durability. Turf manufacturers often provide warranties against fading or discoloration, giving consumers peace of mind about their investment's longevity. With an ability to withstand intense sunlight without losing color vibrancy, it keeps landscapes looking fresh and appealing for many years.

Additionally, maintenance costs are significantly reduced when using this type of synthetic turf. Unlike natural grass which requires constant watering, mowing and fertilizing just to stay healthy in such conditions, artificial turf involves minimal upkeep. Water bills are greatly reduced as a result of not needing irrigation systems for the lawn - a crucial factor considering Las Vegas' arid environment.

Another great advantage is its eco-friendliness. With water scarcity being a real concern in Las Vegas due to its desert climate, using synthetic grass helps conserve this precious resource by eliminating the necessity for regular watering like traditional lawns require.

Furthermore, UV-resistant synthetic turf contributes positively towards improving outdoor aesthetics by providing uniformity in landscaping design throughout different seasons. Natural grass tends to go dormant during winter months resulting in unattractive brown patches; however, artificial lawns remain vibrant and green regardless of weather conditions.

Lastly, but equally important is the fact that UV resistant synthetic turfs are hypoallergenic making them safe even for individuals with allergies unlike natural lawns that might trigger allergic reactions due to pollen, mold, or other allergens.

In conclusion, UV-resistant synthetic turf offers a practical and visually appealing solution for those living in Las Vegas. Its durability against harsh weather conditions paired with low maintenance requirements and environmental benefits make it an excellent choice for both residential and commercial spaces.

Comparing UV-Resistant Synthetic Turf and Traditional Grass in Las Vegas —

Comparing UV-Resistant Synthetic Turf and Traditional Grass in Las Vegas

Title: A Comparative Study of UV-Resistant Synthetic Turf and Traditional Grass in Las Vegas

The growing trend towards sustainable and low-maintenance landscapes has increased the popularity of synthetic turf, particularly UV-resistant varieties, in cities with intense sunlight like Las Vegas. This essay will compare the use of UV-resistant synthetic turf to traditional grass in this desert city.

UV-resistant synthetic turf is a man-made surface created from fibers to mimic natural grass. The added UV resistance makes it ideal for areas exposed to intense sunlight. In contrast, traditional grass requires proper soil, water, sunlight, and maintenance to thrive. However, sustaining a lush green lawn in Las Vegas's arid climate can be challenging due to its limited water resources and extreme temperature conditions.

In terms of durability, UV-resistant synthetic turfs come out on top. They are designed to withstand harsh weather conditions including high levels of ultraviolet radiation without losing color or texture over time. Natural grass, however, tends to turn brown and die when exposed continuously to the scorching sun prevalent in Las Vegas.

Maintenance-wise too, synthetic turf offers significant advantages over natural lawns. While traditional grass requires regular watering, mowing and fertilizing that add up considerable costs over time; artificial turf only needs occasional rinsing for cleaning purposes saving not just money but also precious water resources - a critical consideration for drought-prone areas like Las Vegas.

Another key benefit of opting for UV-resistant synthetic turf is its eco-friendliness. With no need for pesticides or fertilizers which often contaminate groundwater supplies through runoff; artificial lawns present an environmentally-sound alternative to traditional grass.

However, there are certain aesthetic qualities that natural grass possesses which currently remain unmatched by synthetics such as scent and tactile quality. Moreover, some people argue that nothing can replace the cooling effect offered by natural lawns amidst concrete structures.

In conclusion, while both options have their own merits and demerits, UV-resistant synthetic turf seems to be a more practical choice in the context of Las Vegas. It provides durability, requires less maintenance, and is kind to the environment without compromising too much on aesthetics. Yet, preferences may still vary depending upon individual needs and values. Hence it becomes imperative for homeowners to make an informed decision keeping all these factors into consideration.

Installation Process of UV-Resistant Artificial Turf in Las Vegas

Installation Process of UV-Resistant Artificial Turf in Las Vegas

Title: The Installation Process of UV-Resistant Artificial Turf in Las Vegas

Las Vegas, known for its scorching heat and intense sunlight, can make maintaining a lush green lawn quite challenging. However, the introduction of UV-resistant artificial turf has significantly simplified this process. This synthetic turf is not only durable but also retains its fresh green look under extreme weather conditions, making it ideal for the Las Vegas environment.

The installation process of UV-resistant artificial turf involves several steps that demand meticulous attention to detail to ensure optimal results.

The initial stage entails removing the existing natural grass from your lawn. This can be done using a sod cutter which ensures that all roots are eliminated to prevent any growth beneath the artificial turf later on. After clearing out the area, it's crucial to level the ground evenly to create an ideal base for laying down the turf.

The next step involves installing a weed barrier cloth over the cleared area. This layer serves as an additional protective measure against potential weed growth underneath the synthetic turf. Following this step is laying down a crushed stone base (usually made up of decomposed granite). This provides excellent drainage and creates a solid foundation for the artificial grass.

Once you have prepared the base properly, you need to compact it using a plate compactor or water roller until it becomes hard and flat. It's important at this point to ensure that there are no bumps or depressions left as they can affect how your artificial lawn will eventually look.

Now comes what many consider being the most exciting part – rolling out your UV-resistant synthetic turf! It should be laid out in such a way that it aligns perfectly with your desired layout and fits snugly against any borders or edges. Once positioned correctly, you cut and trim off any excess material along these borders using a utility knife.

After trimming down your artificial grass comes securing it into place with landscaping anchor pins or staples every six inches around its perimeter and throughout its area. This step is essential to prevent the turf from moving or being blown away by strong Las Vegas winds.

The final step in this installation process involves applying a layer of infill, usually consisting of sand or

crumb rubber. The infill helps keep the artificial grass blades standing upright and adds more weight to hold down your turf.

In conclusion, the installation process of UV-resistant artificial turf in Las Vegas might seem labor-intensive, but it's highly rewarding in terms of its aesthetics and low maintenance requirements. With this synthetic solution, you can enjoy a green lawn throughout the year without worrying about watering, mowing, or the intense Nevada sun turning it brown.

Maintenance Tips for UV-Resistant Synthetic Turf in Las Vegas

Maintenance Tips for UV-Resistant Synthetic Turf in Las Vegas

Maintaining a lush, green lawn in the arid climate of Las Vegas can be challenging, to say the least. The scorching sun and limited rainfall mean that natural grass struggles to thrive. This is where UV-resistant synthetic turf comes into play. It offers an environmentally friendly, low-maintenance alternative for homeowners who want a beautiful lawn without the hassle of constant watering and mowing. However, even though it's designed to withstand harsh conditions, taking proper care of your synthetic turf can ensure its longevity and keep it looking vibrant year-round.

Firstly, regular cleaning is paramount when maintaining synthetic turf. Dust and debris are inevitable, especially in a desert environment like Las Vegas. Simply using a leaf blower or broom can effectively remove surface-level debris while an occasional rinse with water will help keep your turf looking fresh and clean.

Even though UV-resistant synthetic turf is designed to tolerate direct sunlight without fading or losing its integrity, extended exposure may still cause some damage over time. Therefore, if possible, consider providing some shade by adding outdoor umbrellas or awnings in areas with heavy sun exposure.

Moreover, despite being more resistant to wear and tear than natural grass, high traffic areas on your synthetic turf may start showing signs of compression over time. A simple solution for this issue is cross brushing; use a brush with stiff bristles to fluff up compressed areas every now and then.

Spills are bound to happen with any outdoor space-be it from food or drinks during an outdoor gathering or from kids playing around. Cleaning spills as soon as they occur will prevent stains from settling in on your synthetic turf. Most liquids can simply be hosed off while mild soap can be used for tougher stains.

Lastly but importantly is conducting regular professional check-ups at least once a year. Professionals have the necessary tools and expertise to thoroughly inspect your synthetic turf for any hidden issues such as seam separation or underlying drainage problems that might not be as apparent to untrained eyes.

In conclusion, while UV-resistant synthetic turf is a great low-maintenance solution for achieving a lush lawn in Las Vegas, proper care still plays an important role in maintaining its aesthetic and functional integrity. With these tips in mind, you can enjoy a beautiful, green outdoor space year-round without the typical upkeep associated with natural grass.

	Summerlin South
	Summerlin West
	Sun City Summerlin
	Siena

Summerlin is a **community** in the **Las Vegas Valley** of Southern **Nevada**. It lies at the edge of the **Spring Mountains** and **Red Rock Canyon** to the west; it includes the census-designated place of **Summerlin South**, is partly within the official city limits of **Las Vegas** and partly within unincorporated **Clark County**. This community occupies over 22,500 acres and holds over 230 parks, more than two dozen public and private schools, 14 houses of worship, ten golf courses, three resort hotels, recreational facilities, retail and entertainment centers, well-established office parks, a medical center, and more.^[1]

The community is divided into three associations (North, **South**, and West), which oversee two dozen commercial and residential villages.

At the time of the 2010 census, Summerlin's population was nearly 100,000, having risen from 59,000 residents in the year 2000.[2]

Summerlin was named after Jean Amelia Summerlin, the grandmother of billionaire land developer **Howard Hughes**. The **Howard Hughes Corporation** maintains ownership of the master-planned community, along with **Downtown Summerlin** (the community's premier shopping, dining, and entertainment district) and the **Las Vegas Ballpark** (home of the **Las Vegas Aviators minor league baseball** team, which is named in Hughes' honor).

History

[edit]

In 1952, the film director, aviator, and casino mogul **Howard Hughes** purchased 25,000 acres (10,000 ha) of land in Southern Nevada, making him the Las Vegas Valley's largest landowner.[3] Despite his initial intentions, he ultimately chose not to relocate his company to Nevada, so the purchased land remained undeveloped and empty for decades. After Hughes died of kidney failure in 1976, the **Summa Corporation** was organized by his heirs to oversee his vast business empire and land holdings. In 1988, the corporation announced that they would be developing the empty acres of land into a master-planned commercial and residential community. They named the project "Summerlin", after Hughes' paternal grandmother, Jean Amelia Summerlin.[4]

In preparation for this large-scale development, Summa Corporation made a deal with the **Bureau of Land Management** in which they traded 5,000 acres of environmentally sensitive land for 3,000 acres of land better suited for development. After this environmental concern was addressed, development began. By the end of 1990, the construction of Summerlin's first residential village, park, and school had been completed.[4] In 1994, Summa Corporation rebranded itself as the **Howard Hughes Corporation** and continued to develop new Summerlin villages.

New home construction continued to boom through the turn of the century. From 1997 to 2007, Summerlin was consistently ranked as the #1 community in the nation for new home sales.[4] The **Great Recession** caused a temporary slow-down in construction, but signs of revival became especially apparent in 2014, when **Downtown Summerlin** opened, bringing 106 acres of shopping, dining, and entertainment to Summerlin residents. Residential development also saw a great revival following the recession, and by 2016, Summerlin was once again one of the top communities in America for new home sales.[4]

Summerlin is still a growing community. As of 2018, over two dozen commercial and residential villages have been constructed, with over 6,000 acres still available for future development.[4]

Geography

[edit]

Climate

[edit]

Summerlin has a hot desert climate typical of the **Mojave Desert** in which it lies (**Köppen climate classification**: BWh).

Summers tend to be very hot and very dry, with daily highs often exceeding 100 °F (38 °C), with temperatures as high as 118 degrees have been observed. The spring months are generally sunny, warm, and dry, with daily highs in the 70s and 80s. Winters tend to be cool and windy, with daily highs in the 50s; temperatures seldom drop below freezing, and snowfalls are rare but some rain is common (especially in January and February).

Economy

[edit]

Allegiant Air has their corporate headquarters in Summerlin.^{[6][7][8]}

Hotel and casinos

[edit]

The Summerlin area is home to three major resort casinos.

- **JW Marriott Las Vegas**, which includes the attached Rampart Casino, both opened in 1999.^[9]
- **Red Rock Casino, Resort & Spa**, opened in 2006.^[10]
- **Suncoast Hotel and Casino**, opened in 2000. Generally considered a Summerlin property,^{[11][12]} but actually located just outside the community.^[13]

Summerlin is also home to a non-gaming hotel known as Element Las Vegas, developed by **Westin Hotels**.^{[14][15]} It opened in 2008.^{[16][17]}

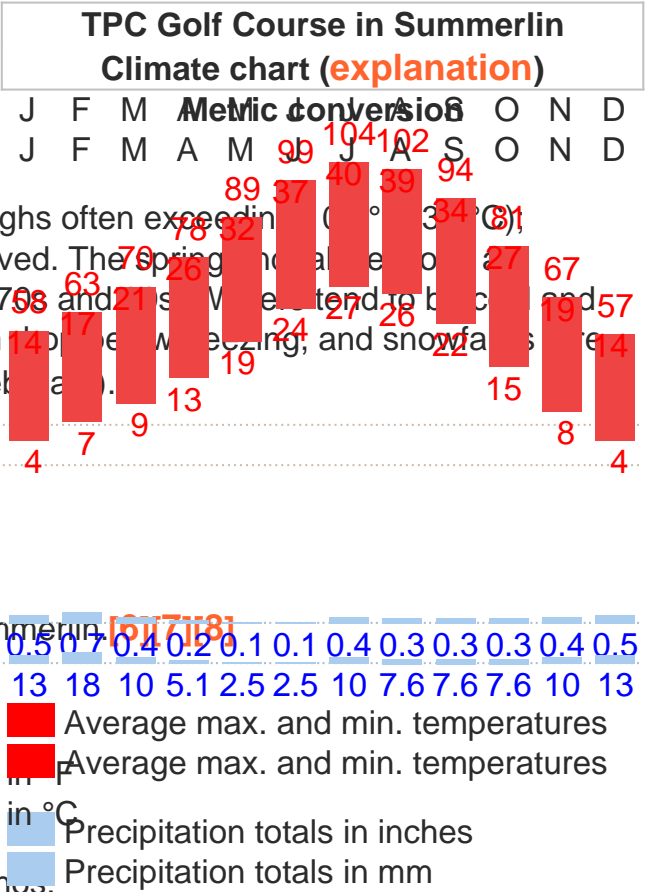

Arts and culture

[edit]

Downtown Summerlin

[edit]

Main articles: **Downtown Summerlin** and **Downtown Summerlin (shopping center)**

A palm tree-lined street in Downtown Summerlin

Downtown Summerlin is a 400-acre (160 ha) **mixed-use** district. It opened in 2014, and includes a 106-acre (43 ha) shopping center with more than 125 shops, bars, and restaurants.^[18] It also features office and residential space.^{[19][20][21]} In addition, Downtown Summerlin also includes two sports facilities:^[22]

- **City National Arena**, opened in 2017. It serves as a practice facility for the **Vegas Golden Knights** NHL franchise and is also the home arena of the **UNLV Rebels** hockey program.^[23]
- **Las Vegas Ballpark**, opened in 2019 and home of the **Las Vegas Aviators** minor league baseball team.^[24]

Local events are held in Downtown Summerlin throughout the year, including an annual art festival,^{[25][26]} outdoor fitness classes, wine walks, holiday festivals, and visits from celebrity guest speakers.^[citation needed]

Library

^[edit]

Summerlin has a **public library**, a branch of the Las Vegas-Clark County Library District.^[27]

Sports

^[edit]

The city's NHL franchise, the **Vegas Golden Knights**, practice at City National Arena in Summerlin. The arena also offers skating lessons, hosts youth and adult amateur hockey leagues, and trains competitive figure skaters.^[28]

The **UNLV** Hockey team plays its home games at City National Arena in Summerlin.

The **Las Vegas Aviators** (a **minor league** baseball franchise) play at the **Las Vegas Ballpark** in Summerlin.

Parks and recreation

^[edit]

Cycling

[\[edit\]](#)

Bicycle lanes are provided on most major roads in Summerlin, as well as in the adjacent **Red Rock Canyon National Conservation Area**.

Community parks

[\[edit\]](#)

Large community parks, which are available for free public use, are located throughout Summerlin. As of 2018, there are 25 community parks that feature a variety of recreational amenities, which may include: community centers, barbecue areas, walking trails, playgrounds, swimming pools, interactive water features, soccer fields, baseball fields, football fields, basketball courts, tennis courts, volleyball courts, bocce ball and shuffleboard courts, and motorized toy areas. In addition, the parks with community centers typically offer special events, classes, and children's camps.^{[\[29\]](#)}

Walking trails

[\[edit\]](#)

As of 2018, the Summerlin Trail System is more than 150 miles long and connects local neighborhoods to various amenities throughout the community.^{[\[30\]](#)} The system includes five types of planned trails: street-side, village, bike, regional, and natural.

Upon completion, the trail system will be more than 200 miles long and will connect to more than 2,000 miles of regional trails, making it one of the most comprehensive and efficient trail systems in the southwestern United States.

In 2008, Summerlin and the **Howard Hughes Corporation** received the American Trails Developer Award, which is given to developers in recognition of "quality, well designed multi-use trails systems that are integrated into private developments."^{[\[31\]](#)}

Mountain recreation

[\[edit\]](#)

The adjacent **Red Rock Canyon National Conservation Area** offers 26 hiking trails (ranging in difficulty from easy to strenuous). The canyon is also suitable for bouldering and rock climbing and has an overnight camp site.^{[\[32\]](#)}

Government

[[edit](#)]

The headquarters for the **Howard Hughes Corporation**, which owns and maintains the Summerlin master-planned community.

A small section of suburban development in Summerlin.

Summerlin lies partially within an incorporated municipality and partially within an unincorporated area. It is patrolled by the Las Vegas Metropolitan Police Department - Summerlin Area Command.

The area north of **Charleston Boulevard** is within the city of **Las Vegas**, while the area south of Charleston Boulevard is located in unincorporated **Clark County**. As a planned community, Summerlin is managed by three master associations (Summerlin North, **Summerlin South**, and Summerlin West). Summerlin is further developed into commercial and residential villages. Many individual subdivisions also have their own **homeowners associations**.^{*[citation needed]*}

Summerlin has three **age-restricted communities** for senior citizens (**Sun City Summerlin**, The Regency, and Siena).^{*[citation needed]*}

Education

[[edit](#)]

Public schools

[[edit](#)]

Public schools in Summerlin belong to the **Clark County School District**, which serves almost all of **Southern Nevada**.

Elementary schools located in Summerlin

[[edit](#)]

- Shelley Berkley Elementary School
- John W. Bonner Elementary School
- Roger M. Bryan Elementary School
- Linda Rankin Givens Elementary School
- John & Judy Goolsby Elementary School
- William R. Lummis Elementary School
- D'vorre & Hal Ober Elementary School
- Ethel W. Staton Elementary School
- James B. McMillan Elementary
- Katz Elementary

Middle schools located in Summerlin

[[edit](#)]

- Ernest Becker Middle School
- Victoria Fertitta Middle School
- Sig Rogich Middle School

High schools located in Summerlin

[[edit](#)]

- **Palo Verde High School**
- **Cimarron-Memorial High School**
- **West Career And Technical Academy** (**magnet school**)

In addition to the above-listed public schools, some Summerlin residents may be zoned for schools located just outside of the Summerlin boundaries (many families in Summerlin South, for example, are zoned for **Durango High School** in nearby Spring Valley).[\[33\]](#)

Private schools

[[edit](#)]

Summerlin is also home to several private schools, including:

- **The Adelson Educational Campus** (K-12; Jewish)
- **Alexander Dawson School** (K-8; Secular)
- **Bishop Gorman High School** (9-12; Catholic)

- **Faith Lutheran Academy** (K-5; Lutheran)
- **Faith Lutheran Jr/Sr High School** (6-12; Lutheran)
- **The Meadows School** (K-12; Secular)
- Merryhill School (K-5; Secular)
- St. Elizabeth Ann Seton Catholic School (K-8; Catholic)
- The Shenker Academy (Kindergarten only; Jewish)
- Sholom Schechter Day School of Las Vegas (K-5; Jewish)

Higher education

[[edit](#)]

Higher education within the community of Summerlin is mostly limited to small satellite campuses, including:

- The **College of Southern Nevada** (Summerlin Center Campus; Public)
- The **Roseman University of Health Sciences** (Summerlin Campus; Private)

However, Summerlin is also located within 10 miles of the **College of Southern Nevada**'s main campus (CSN - Charleston), within 20 miles of the **University of Nevada, Las Vegas** (UNLV), and within 30 miles of **Nevada State College** (NSC).

Infrastructure

[[edit](#)]

Healthcare

[[edit](#)]

The **Summerlin Hospital** Medical Center, a private hospital operated by the Valley Health System, provides 485 beds to the local community. It is an accredited Chest Pain Center and Primary Stroke Center. Other features include: the Children's Medical Center, the Breast Care Center, the Cancer Center, the Rehab Center, and the Robotic Surgery Center. Its 40-acre campus is located in The Crossings village of Summerlin North.^[**34**]

About Artificial Turf

Redirect to:

- **Artificial turf**
- **From other capitalisation**: This is a redirect from a title with another method of capitalisation. It leads to the title in accordance with the **Wikipedia naming conventions for capitalisation**, or it leads to a title that is associated in some way with the conventional capitalisation of this redirect title. This may help writing, searching and international language issues.
 - If this redirect is an incorrect capitalisation, then **R from miscapitalisation** should be used *instead*, and pages that use this link should be updated to link *directly* to the target. Miscapitalisations can be tagged in *any namespace*.
 - Use this rcat to tag *only* **mainspace** redirects; when other capitalisations are in other namespaces, use **R from modification** *instead*.

About Landscaping

"Landscapers" redirects here. For the 2021 true crime TV series, see **Landscapers (TV series)**.

Landscaping an elementary school courtyard in the city of **Kuching**

Landscaping refers to any activity that modifies the visible features of an area of land, including the following:

1. **Living elements**, such as **flora** or **fauna**; or what is commonly called **gardening**, the art and craft of growing plants with a goal of creating a beauty within the **landscape**.
2. Natural **abiotic elements**, such as **landforms**, **terrain** shape and elevation, or **bodies of water**.
3. Abstract elements, such as the **weather** and lighting conditions.

Landscaping requires a certain understanding of **horticulture** and artistic design, but is not limited to plants and horticulture. Sculpting land to enhance usability (patio, walkways, ponds, water features) are also examples of landscaping being used. When intended as purely an aesthetic change, the term **Ornamental Landscaping** is used.[1]

Often, designers refer to landscaping as an extension of rooms in your house (each one has a function). Outdoor spaces have a vast amount of flexibility as far as materials and function. It is often said the only limitation to outdoor space is one's imagination.

Understanding the land

[edit]

Construction requires both study and observation, and the process varies in different parts of the world. Landscaping varies according to different **regions**. [2] Therefore, normally local natural experts are recommended if it is done for the first time. Understanding of the site is one of the chief essentials for successful landscaping. [3] Different natural features and phenomena, like the position of the sun, terrain, **topography**, **soil qualities**, prevailing winds, depth of the **frost line**, and the system of **native flora** and fauna must be taken into account. [4] Sometimes the land is not fit for landscaping. In order to landscape it, the land must be reshaped to direct water for appropriate drainage. This reshaping of land is called **grading**. [4] Sometimes in large landscaping projects like, parks, sports fields and reserves soil may need to be improved by adding nutrients for growth of plants or turf, this process is called soil amelioration. [5]

Removal of earth from the land is called cutting while when earth is added to the slope, it is called filling. Sometimes the grading process may involve removal of excessive waste (**landfills**), **soil** and rocks, so designers should take into account while in the planning stage. [6][7]

Additional information

[edit]

At the start, the landscaping contractor issues a statement which is a rough design and layout of what could be done with the land in order to achieve the desired outcome. [4] Different pencils are required to make graphics of the picture. Landscaping has become more technological than natural, as few projects begin without **bulldozers**, **lawnmowers**, or **chainsaws**. [2] Different

areas have different qualities of plants. When growing new grass, it should ideally be done in the spring and the fall seasons to maximize growth and to minimize the spread of weeds. It is generally agreed that organic or chemical **fertilizers** are required for good plant growth. Some landscapers prefer to use mix **gravel** with rocks of varying sizes to add interest in large areas.^[8]

About Landscape maintenance

One example of a maintained landscape from **Beaverton, Oregon**

Landscape maintenance (or **groundskeeping**) is the art and vocation of keeping a landscape healthy, clean, safe and attractive, typically in a **garden, yard, park**, institutional setting or **estate**. Using **tools**, supplies, knowledge, physical exertion and skills, a **groundskeeper** may plan or carry out annual plantings and harvestings, periodic weeding and fertilizing, other **gardening**, lawn care, **snow removal**, driveway and path maintenance, shrub **pruning**, **topiary**, lighting, **fencing**, swimming pool care, runoff drainage, and **irrigation**, and other jobs for protecting and improving the **topsoil, plants**, and garden accessories.

Groundskeepers may also deal with local animals (including birds, rodents, reptiles, insects, and domestic animals or **pets**), and create means to attract or repel them, as desired or necessary. A garden may also be designed to include exotic animals, such as a **koi pond**. In larger estates, groundskeepers may be responsible for providing and maintaining habitat for wild animals.

Landscape maintenance industry

[edit]

According to IBISWorld, who published an article in September 2019 on the Landscape Industry in the US, the Landscaping Industry is worth \$98.8 billion. From 2014-2019, the industry had an annual growth of 4.4%, but it is estimated that from 2019- 2024 the industry will decrease to only a 1.5% annual growth. The Industry is suspected to have a 1.2% growth in the number of businesses and low entry barriers for new companies. Due to the continuous and steady growth of this industry, competition for new businesses is high.[1]

In May 2017, the U.S Bureau of Labor Statistics (BLS), estimated that 912,360 "Landscape and Groundskeeping Workers" maintained jobs under this job title. These workers have an average annual pay of \$29,700 paired with a mean hourly wage of about \$14.28. These jobs hold a variety of hourly rates ranging from \$9.59, which equals an annual pay of \$19,960 a year, to \$20.61, which holds an annual pay of \$42,870.[2] The exact description of this job can change solely based on the company that has posted the job description, but according to the BLS, " Landscape or maintain grounds of property using hand or power tools or equipment. Workers typically perform a variety of tasks, which may include any combination of the following: sod laying, mowing, trimming, planting, watering, fertilizing, digging, raking, sprinkler installation, and installation of mortarless segmental concrete masonry wall units." The BLS also claims that this job title excludes "Farmworkers and Laborers, Crop, Nursery, and Greenhouse (45-2092)."

Demand for landscaping and pool installation work increased during the **COVID-19 pandemic** due to the increased number of **remote workers** spending time in their homes.

Landscape maintenance encompasses not only the routine upkeep of outdoor areas but also integrated property care solutions that enhance both aesthetics and functionality. For example, companies like **KD Landscaping in Syracuse, New York**, illustrate this broader approach by offering comprehensive property maintenance services. These services include landscape design

and installation, drainage management, deck and fence construction, and other specialized repairs aimed at protecting property value and preventing damage. This integrated model ensures that landscapes are not only well-maintained but also resilient against environmental challenges, thereby contributing to long-term sustainability and enhanced curb appeal.

Quality Work! Friendly and respectful individuals in all my interactions throughout the project. I had my yard renovated with new artificial turf, decorative rocks, and a few trees. It looks beautiful and everything was completed in a timely and efficient manner. Highly recommended (if it is in your budget).

Workers were great, no problem they did what was required, but the representative of your company misled me on what was to be done, I showed pictures from a competitor landscaper, representative stated he could bet there , , . price, but since it wasn't in contract, I was left with uncomplicated backyard , working with owner at present, so he's been outstanding working on this situation, as amount of rock was way off and the owner did increase the amount substantially to finish the front yard. another landscaper under contract to finish the backyard. Would like to add a comment the manger/owner of Las Vegas yard n block stands behind his words and helped me tremendously on finishing up the backyard,

My initial contact was with Ray, whom did an excellent job giving me an estimate on what I wanted done in my small yard and walkway., the guys that came out and did the work were superior. They did an excellent job. I'm very pleased with this company. I will highly recommend them to family and friends, and I will be using them in the near future for other little projects.

Eric and team did an amazing job. They worked with me for months while I got HOA approval for the project. Once they began working they were great, going over everything in detail and making sure things were perfect. This project included wall repair, stucco and paint repair, paver and turf installation. Extremely satisfied with this experience.

We recently had a very positive experience with Rock N Block for our fence replacement. The entire process went smoothly and exceeded our expectations. Harvey and his team were incredibly professional and communicative throughout the project providing much-needed assurance and peace of mind. The crew was punctual and maintained a diligent and respectful attitude that made the experience pleasant. The crew finished the project ahead of schedule, and the quality of their work is impressive; our new wall looks great! We recommend Rock N Block for any fencing needs and look forward to working with them again. Thank you, Harvey and crew, for a job well done!

Frequently Asked Questions

What is UV-resistant synthetic turf?

UV-resistant synthetic turf is a type of artificial grass that has been treated or made with materials that can withstand the harmful effects of ultraviolet (UV) radiation, preventing color fading and material degradation.

Why would someone in Las Vegas need UV-resistant synthetic turf?

The climate in Las Vegas is mostly sunny and hot. Regular exposure to intense sunlight can damage regular synthetic turfs over time. Therefore, having UV-resistant synthetic turf in Las Vegas helps maintain its vibrant color and integrity for a longer period.

How does UV-resistant synthetic turf compare to regular artificial grass in terms of durability?

Generally, UV-resistant synthetic turf tends to be more durable than regular artificial grass because its designed to resist the damaging effects of prolonged sun exposure. This results in less discoloration over time and potentially longer lifespan.

Where can I purchase UV-resistant synthetic turf in Las Vegas?

There are several companies selling this product in Las Vegas including Synthetic Lawns of Las Vegas, Elite Landscaping & Sprinkler Repair, among others. You could also opt for online platforms like Amazon that deliver nationwide.

What is the cost difference between standard artificial grass and UV-Resistant Synthetic Turf?

The cost may vary from one provider to another. Usually, the price for standard quality ranges from \$2-\$5 per square foot whereas high-quality with additional features such as UV-resistance could cost anywhere between \$6-\$20 per square foot. Its best to contact local suppliers for accurate pricing.
