It offers a pet-friendly surface that is easy to clean [synthetic turf suppliers Las Vegas](#) Synthetic lawn covering. Artificial grass is an excellent solution for those wanting to enjoy the aesthetic appeal of natural grass without dealing with its upkeep challenges. It's

durable, pet-friendly, and most importantly, stays green all year round regardless of the weather conditions. But what about the cost? Is it worth investing in?

When considering the affordability of artificial turf installation, we must look at more than just the upfront costs; we also need to consider long-term savings. The initial cost may seem steep depending on your chosen type and quality - ranging from \$5 to \$20 per square foot professionally installed. However, when compared with traditional lawns' ongoing expenses like watering bills, regular mowing services or equipment maintenance costs (which could add up to hundreds or even thousands annually), the investment quickly pays off.

Moreover, there are several types of artificial grass available on the market that cater to various budgets and needs: Polyethylene (the most common choice for its realistic appearance), polypropylene (the most economical but less resilient), and nylon (the most expensive but very durable). Each varies not only in price but also in feel and longevity.

Furthermore, several companies offer affordable installation packages within Las Vegas that include other landscaping services as well-a one-stop-shop for your outdoor remodeling needs! It is recommended you get quotes from multiple installers before making a decision.

Also critical to note is that by installing an artificial lawn in Las Vegas where water conservation is crucial due to its arid environment-you're partaking in sustainable practices too. This not only saves you money on water bills but also contributes positively to the environment.

Therefore, if you're considering an artificial lawn in Las Vegas, don't be deterred by the upfront cost. It's more than just an expense; it's a long-term investment that pays for itself over time and enhances your quality of life with its convenience and aesthetic appeal. When looking at it from this perspective-factoring in the maintenance savings, durability, variety of options available, environmental impact, and aesthetics-an artificial lawn emerges as a truly affordable solution.

## **Exploring Affordable Artificial Turf Suppliers in Las Vegas**

With the increasing popularity of artificial turf due to its low maintenance and long-lasting vibrant appearance, many homeowners in Las Vegas are exploring affordable artificial turf suppliers. This shift towards synthetic grass has opened up a whole new market for businesses offering these services. As such, this essay aims to guide you through the process of finding affordable artificial turf suppliers in Las Vegas.

The first step is understanding what exactly you're looking for in terms of an artificial lawn. The type of grass, pile height, density, color variations and backing material are some factors that can significantly affect both the cost and quality of your artificial lawn. Having a clear idea about your requirements will enable you to compare prices more effectively among different suppliers.

Next comes the research phase. Thanks to modern technology, we can now easily find a list of potential suppliers with just a few clicks on our computers or smartphones. Websites like Google Maps or Yelp can provide valuable information including reviews from previous customers which can give you insights into their product quality and customer service experience.

However, don't limit yourself to online research only. It's also beneficial to visit physical stores where you can see and touch samples. This allows you to get a firsthand feel of what you're potentially buying.

Consideration should not be solely based on price though; it's equally important to ensure that your chosen supplier offers high-quality products that will serve their purpose for years to come without requiring much maintenance or causing any environmental harm. Check if they offer guarantees or warranties on their products as this could save significant costs down the line should anything go wrong.

Lastly, remember that installing an artificial lawn is not just about purchasing the turf itself but also includes other costs like ground preparation and installation charges which may sometimes exceed the cost of the turf itself! Make sure you ask about all these additional expenses upfront so there are no surprises later on.

In conclusion, when looking for affordable artificial turf suppliers in Las Vegas or any other place for that matter, remember to have a clear understanding of what you require, do thorough research both online and offline, prioritize quality over price and always consider the total costs including installation charges. This will ensure that you get an affordable artificial lawn that doesn't compromise on quality or durability.

# Maintenance and Long-term Affordability of Artificial Lawns in Las Vegas

## Maintenance and Long-term Affordability of Artificial Lawns in Las Vegas

Artificial lawns have become increasingly popular over the years, particularly in areas like Las Vegas where natural grass struggles to thrive due to the hot and arid climate. However, one of the key considerations for homeowners and businesses when it comes to artificial lawns is their maintenance and long-term affordability.

Artificial lawns offer a highly attractive proposition: they are visually pleasing all year round, require minimal watering, no mowing or fertilizing, which automatically reduces maintenance costs significantly. This makes them an ideal choice for Las Vegas residents who are looking to maintain a lush green lawn without the high water bills and laborious upkeep associated with natural grass.

When you first install an artificial lawn, it may seem like a hefty investment. However, considering its life-span and low-maintenance nature, it turns out to be quite cost-effective in the long run. A quality artificial lawn can last up to 15-20 years with proper care; this longevity plays a significant role in its overall affordability.

Additionally, regular cleaning of debris using a rake or leaf blower and occasional washing with water is all that's required for maintaining an artificial lawn compared to its natural counterpart which demands constant watering, mowing and fertilizing. The fact that these synthetic turfs do not need any pesticides or herbicides further adds to their cost-effectiveness as well as environmental friendliness.

In Las Vegas where water is scarce and expensive, having an artificial lawn translates into significant savings on your water bill over time. Moreover, many cities even offer rebates for homeowners who choose to replace their natural grass with artificial turf due to its eco-friendly benefits.

Moreover, advancements in technology have made today's synthetic turfs more realistic than ever before - both aesthetically and functionally - making them an appealing choice for residential as well as commercial properties.

While some might argue about the upfront costs associated with installing artificial lawns being higher than planting natural grass seeds or sod, the long-term savings derived from their minimal maintenance requirements and durability make them a financially sound choice.

In conclusion, the affordability of artificial lawns in Las Vegas is not just about the initial installation costs but rather its long-term benefits in terms of maintenance and durability. They offer an innovative

solution for maintaining a beautiful lawn without the high costs and environmental impact associated with natural grass, making it an affordable option for many homeowners and businesses in Las Vegas.

## How to Choose the Best and Most Affordable Artificial Lawn Service in Las Vegas

## **How to Choose the Best and Most Affordable Artificial Lawn Service in Las Vegas**

Choosing the best and most affordable artificial lawn service in Las Vegas can be a daunting task. With so many options available, it is easy to feel overwhelmed. However, with careful consideration and research, you can find a provider that meets your needs without breaking the bank.

To start with, it is crucial to define what you want from an artificial lawn service provider. Do you need installation services alone or do you also require maintenance? Clearly outlining your expectations will help narrow down potential candidates.

Next, conduct thorough research on different providers in Las Vegas. Utilize online resources such as websites, social media platforms and review sites to gather information about their experience level, service offerings and pricing structure. Looking at customer reviews can provide invaluable insights into how a company operates and whether they deliver on their promises.

Once you've narrowed down your options based on online research, reach out to each of them for quotes. This will give you a better understanding of the cost involved and allow you to compare prices across different companies.

However, remember that cheaper isn't always better when it comes to artificial lawn services. Quality should never be compromised for cost; after all, an improperly installed or poorly maintained artificial lawn can end up costing more in the long run due to repairs or replacements.

In addition to price comparisons, make sure to evaluate their customer service as well. A good company should be responsive and attentive to customer inquiries and concerns.

Lastly, consider whether the company offers any guarantees or warranties on their workmanship or products used. This could potentially save you money if something goes wrong soon after installation.

By considering these factors carefully while choosing an artificial lawn service provider in Las Vegas, you'll likely end up with excellent results that fit within your budget constraints.

Remember that finding the right balance between affordability and quality is key when seeking out an artificial lawn service provider in Las Vegas - a city known for its beautiful landscapes and outdoor living spaces.

So take your time, do your research and make an informed decision that will transform your outdoor space into a verdant paradise without draining your wallet.

Pahrump welcome sign

**Pahrump** (/pəˈrʌmp/ *pə-**RUMP***) is an **unincorporated town** located at the southernmost tip of **Nye County, Nevada**, United States,<sup>[3]</sup> about 50 miles (80 km) west of **Las Vegas** (roughly an hour away by driving distance). Pahrump lies adjacent to the Nevada–**California** border and the area had a population of 44,738 as of the 2020 census.

## History

[**edit**]

Pahrump was originally inhabited by the **Southern Paiute**. It was slowly inhabited by settlers in the late 19th century. They reportedly chose the name for Pahrump after the original **Southern Paiute** name *Pah-Rimpi*, or "Water Rock," so named because of the abundant **artesian wells** in the valley. Because of the artesian wells, the new inhabitants of **Pahrump Valley** began a number of large **ranch**-style holdings, mostly over 1,000 acres (400 ha) in size. On the ranches, **alfalfa** and **cotton** were grown, and **livestock** were raised.

## View of the mountains from town

Until the 1960s, Pahrump had no **telephone** service except a radio transmitter phone in a phone booth next to the small market, and there were no paved roads in or out of the Pahrump Valley. As **Las Vegas** grew, the Pahrump region also saw more real estate development and population growth. This led to the introduction of telephone service and the construction of a paved highway between Las Vegas and Pahrump during the late 1960s. Later, this road (**NV 160**) was extended from Pahrump northward to **US 95**, near **Amargosa Valley**. A second paved road (**NV 372**) was introduced that went from Pahrump to neighboring **Shoshone, California**, which provided a link to the **Death Valley** area, as well as a shorter route to those wishing to travel to **Los Angeles** or other areas in California. In the fifties and sixties, there was a two-room elementary school and the high school students went to Shoshone. In 1974, Pahrump's first high school, Pahrump Valley High School, was constructed.<sup>[4]</sup>

Pahrump is an archetypal example of an **exurb** (a residential region beyond suburbs). Almost all significant agriculture has ended in the valley,<sup>[5]</sup> and over the years the surface aquifers have been drained. Residential housing growth in Pahrump was partly responsible for Nye County ranking among the fastest growing counties nationwide in 2005.<sup>[6]</sup>

Las Vegas casino owner **Ted Binion** buried a large treasure of **silver** in a secret underground vault in Pahrump. In 1998, Binion died under suspicious circumstances, and one of the parties accused of murdering Binion was apprehended while digging up the vault in Pahrump. A book about the Binion murder trial (and Las Vegas poker) is ***Positively Fifth Street*** by **James McManus**.

On November 15, 2006, the Pahrump town board voted for an ordinance declaring English the official language of business, limiting the display of foreign flags, and denying housing assistance or other welfare benefits to illegal immigrants.<sup>[6]</sup> A measure in the ordinance required an American flag to be displayed above any other flag, regardless of what organization, nation, or government it represented. County Sheriff Tony DeMeo said he would not attempt to enforce the ordinance,<sup>[6]</sup> which was repealed four months later because of bad publicity.<sup>[7]</sup>

On November 4, 2017, **Koenigsegg** Automotive AB achieved the **highest top speed of a production car** ever, surpassing the **Bugatti Veyron**. The **Koenigsegg Agera RS** reached a top speed of 277.9 mph (447.2 km/h) on **Nevada State Route 160** in the Pahrump region.<sup>[8]</sup><sup>[9]</sup>

## Geography and climate

<sup>[edit]</sup>

According to the **United States Census Bureau**, the **census-designated place** of Pahrump has a total area of 297.9 sq mi (771.5 km<sup>2</sup>), all of which is land. By area, it is the

largest CDP in the contiguous United States, although it ranks only eleventh nationally, since the largest ten are all in Alaska. The area lies in the **Mojave Desert**.

Summers in Pahrump are generally very hot and dry, with occasional pushes of monsoonal moisture beginning in early July. Being at a similar elevation to Las Vegas, daytime highs in summer average within a few degrees lower than that of Las Vegas. Record highs are similar between the two cities as well. A typical day during June through August brings temperatures around 100 °F (38 °C), and occasionally 110 °F (43 °C). Nighttime temperatures, however, are noticeably cooler. This is due to the lack of an **urban heat island** in Pahrump, allowing for intense radiative cooling after sundown. As a result, summer nights are pleasantly warm, bottoming out in the mid-60s or 70s °F (around 20 °C). Pahrump's location in a valley leads to large diurnal temperature ranges, typically 30 °F (17 °C) but occasionally 40 °F (22 °C). By late August and early September, the sweltering summer heat noticeably tempers down. September is the gateway to fall, which brings very pleasant weather. October highs are generally 80 °F (27 °C) and nighttime temperatures in the 50s °F (low teens °C). Due to its elevation, Pahrump is protected from the searing summer temperatures experienced in the nearby **Death Valley**.

Like other locations in the Mojave desert, winters are typically mild, with occasional pushes of cold air from the north. Daytime highs average from the mid-50s and 60s °F (10s °C), but low temperatures hover around freezing for most nights between December and February. Spring brings pleasantly warm temperatures and cool evenings. Like other locations in the Mojave desert, this is the windiest time of year. Snowfall is rare in Pahrump, but there is generally at least one snow day per year.

**Melvin Dummar**, who claimed to have saved the life of **Howard Hughes** and who was named in a disputed will as Hughes's main beneficiary, lived for a while in Pahrump and died there in 2018.[37]

1992 Libertarian Vice Presidential candidate **Nancy Lord** lived in Pahrump for a number of years.

Although **brothel** owner **Dennis Hof** died in nearby **Crystal**, he referred to himself in political ads as "The Trump of Pahrump," a sobriquet he credited to **Donald Trump** advisor **Roger Stone** (an early supporter of Hof).[38] Hof was elected posthumously to a seat in the **Nevada Assembly** in 2018. A group of county commissioners within the legislative district was empowered to appoint a successor; Pahrump utility general manager **Gregory Hafen II** won appointment to the seat.

Libertarian writer and filmmaker **J. Neil Schulman**, author of ***Alongside Night*** (1978) and writer/producer/director of the indie film *Alongside Night*, [39] lived in Pahrump. Schulman was the first to produce a film that featured Pahrump, in the script of ***Lady Magdalene's***, which starred **Nichelle Nichols** as the owner of the title **brothel**.

**Henderson** is a city in **Clark County, Nevada**, United States, about 16 miles (26 km) southeast of downtown **Las Vegas**. It is the **2nd most populous city** in **Nevada**, after Las Vegas, with 317,610 residents.[4] The city is part of the **Las Vegas Valley**.

Henderson is notable for its extensive system of outdoor recreation facilities, including over 220 miles (354 km) of trails and 72 parks.[5]

Incorporated in 1953, Henderson was originally known for its role in magnesium production during World War II.[6] Since then, it has grown rapidly through the development of master planned communities starting with the large Green Valley neighborhood,[7][8] redevelopment and reinvestment after the **PEPCON Disaster**,[9] and the city government's historically proactive planning and management.[10]

## History

[edit]

The township of Henderson first emerged in the 1940s during World War II with the building of the Basic Magnesium Plant. Henderson quickly became the main supplier of **magnesium** in the United States, which was called the "miracle metal" of World War II.[11] The plant supplied the **US War Department** with magnesium for incendiary munition casings and airplane

engines, frames, and other parts. A quarter of all US wartime magnesium came from the Henderson Plant to strengthen **aluminum**, using 25% of **Hoover Dam**'s power to separate the metal from its ore by **electrolysis**.<sup>[12]</sup>

Although "born in America's defense", Henderson's future after World War II was uncertain. In 1947, magnesium production was no longer necessary for defense, and most of the Black Mountain Industrial (BMI) Complex's 14,000 employees moved away. Enrollment in the school system was reduced by two thirds, and well over half the townsite houses, built to house plant workers, became vacant. In 1947, the United States War Asset Administration offered Henderson for sale as war surplus property.<sup>[13]</sup>

With the help of local industry, Henderson was incorporated on April 16, 1953, as the City of Henderson. On May 23, 1953, Henderson, with its population of 7,410, elected Dr. Jim French as the first mayor. Originally only about 13 square miles (34 km<sup>2</sup>) in size, the city quickly began to grow, reaching over 100 square miles (260 km<sup>2</sup>) in size in 2022.<sup>[14]</sup>

## Ammonium perchlorate factory fire

<sup>[[edit](#)]</sup>

Main article: **PEPCON disaster**

On May 4, 1988, the Pacific Engineering and Production Company of Nevada (PEPCON) chemical plant experienced a catastrophic fire and series of explosions. The facility was one of only two in the United States producing ammonium perchlorate, a key component in solid rocket fuel.<sup>[15]</sup>

The disaster resulted in two fatalities, injured over 300 individuals, and caused extensive damage throughout the Las Vegas Valley.<sup>[16]</sup> The explosions were so powerful that they registered seismic activity equivalent to a 3.5 magnitude earthquake and were felt up to 10 miles away.<sup>[15]</sup>

The incident led to significant changes in industrial safety regulations and emergency response protocols in the region.<sup>[17]</sup> In the aftermath, PEPCON ceased operations in Henderson, and the site was eventually redeveloped for commercial use.<sup>[15]</sup>

## Geography

<sup>[[edit](#)]</sup>

## Map of the Las Vegas Valley with Henderson

Henderson is about 16 miles (26 km) southeast of downtown Las Vegas.<sup>[18]</sup>

According to the **United States Census Bureau**, the city has a total area of 107.7 square miles (279.0 km<sup>2</sup>), all land.<sup>[19]</sup>

The city is in the **Mojave Desert** with wildlife and vegetation typical of the Mojave. The mountains that surround Henderson mostly have gentle slopes. The **McCullough Range** is closest to the city; most of this range is covered by black rocks from a volcanic explosion millions of years ago. These mountains reach an average height of about 3,800 feet (1,200 m). The landscape consists of the desert; the only water in the city is found in washes like Duck Creek.

Residential neighborhoods in Henderson include **Anthem**, Anthem Country Club, Ascaya, Black Mountain Vistas, Cadence, Calico Ridge, Champion Village, The Fountains, Grand Legacy, **Green Valley**, Green Valley Estates, **Green Valley Ranch**, Hillsboro Heights, Inspirada, **Lake Las Vegas**, **MacDonald Highlands**, MacDonald Ranch, Madeira Canyon, Club at Madeira Canyon, Roma Hills, **Seven Hills**, Sun City Anthem, Sun City MacDonald Ranch, **Tuscany Village**, and Whitney Ranch.

## Climate

<sup>[edit]</sup>

Henderson is classified as having a **hot desert climate** (BWh) in the **Köppen climate classification**. It has mild winters and hot summers. Snow can occasionally fall in the winter. The monsoon can bring storms in the summer, which can cause **flash flooding** and **thunderstorms**. The hottest month is July and the coldest month is December. On average there are 292 clear days per year.<sup>[20]</sup><sup>*failed verification*</sup>

About 3.9% of families and 5.6% of the population were below the **poverty line**, including 6.4% of those under age 18 and 4.7% of those age 65 or over.<sup>[28]</sup>

## Economy

<sup>[edit]</sup>

The largest single employer in Henderson is the city government itself, with 3,524 **full-time equivalent** employees. Other large employers include **Barclays**, **Green Valley Ranch**, **Sunset Station**, **Amazon**, the **Las Vegas Raiders**, and **Dignity Health**, which operates two hospital campuses in Henderson.<sup>[29]</sup>

In 2023, the city released a report to identify areas for public policy improvement to support the city economy's primary industries, including: **logistics**, electric equipment and components manufacturing, **financial and credit services**, **media and sports production**, and back-office management and support services.<sup>[30]</sup> Overall, the city attracts more advanced industries than its Southern Nevada counterparts such as Las Vegas, North Las Vegas, and Boulder City since Henderson has more **bachelor's** and **master's degree**-holding residents per capita.<sup>[31]</sup>

## Manufacturing

<sup>[edit]</sup>

**TIMET**, one of the largest manufacturers of **titanium** in the world, operates a facility in Henderson that produces titanium sponge and **titanium tetrachloride**,<sup>[32]</sup> employing approximately 600 people.<sup>[33]</sup>

**Levi Strauss** operates a 620,000-square-foot (58,000 m<sup>2</sup>)<sup>[34]</sup> manufacturing and distribution facility in Henderson, where it utilizes advanced laser technology to create custom-designed denim products. This facility allows for the production of personalized designs at a rapid pace. [

35]

**Haas Automation**, a leading manufacturer of **computerized numerical control** machines, began constructing a major production facility in Henderson in 2024.[36][37] The new facility will cover 2,400,000 square feet (220,000 m<sup>2</sup>) and is expected to employ up to 1,400 people over five years.[36]

ProCaps Laboratories, a **vitamin** manufacturing company, operates a 90,000-square-foot (8,400 m<sup>2</sup>) facility in Henderson. The facility includes a unique 1,400-square-foot (130 m<sup>2</sup>) glass-enclosed **broadcast studio** that enables live broadcasting while production continues uninterrupted. This arrangement is a first-of-its-kind setup in the U.S. for a vitamin production facility.[38]

## IT networking infrastructure

[edit]

**Google's** \$600 million **data center** in Henderson operates on a 64-acre (260,000 m<sup>2</sup>) campus.[39] This facility supports Google's network infrastructure Google **Cloud**, **AI**, **Maps**, **Search** in North America.[40] In addition to the initial investment, Google announced plans to invest an additional \$400 million in 2024 to upgrade its Nevada data centers, including the one in Henderson.[41]

## Logistics

[edit]

Amazon operates multiple facilities in Henderson. Among them is a 600,000-square-foot (56,000 m<sup>2</sup>) **cross-dock facility** that enables efficient redistribution of large inventory shipments. The facility employs over 1,000 workers and is one of three **Amazon fulfillment centers** in Nevada.[42]

The Las Vegas Raiders maintain their corporate headquarters and a healthcare performance center in Henderson. The facility features a 336,000-square-foot (31,200 m<sup>2</sup>) complex with **training fields** and administrative offices.[43]

**Kroger** operates a major distribution center in Henderson, which supports **grocery operations** throughout the region. The 428,000-square-foot (39,800 m<sup>2</sup>) facility employs around 270 people and serves as a vital logistics hub for the company's network of stores.[44]

**Ethel M Chocolates**, established by **Forrest Mars Sr.**, has been a part of Henderson's economic fabric since 1981.[45] The facility produces **gourmet chocolates** and offers a popular tourist attraction with its **cactus garden** and interactive experiences.[46]

Arts and culture

[edit]

**Green Valley Ranch**

An increasing number of major shopping malls, movie theater complexes, concert venues, restaurants and casino resorts offer residents a variety of choices for leisure time in Henderson. The city also sits a few miles southeast of Las Vegas and is not too far from the world-famous **Las Vegas Strip**. "Shakespeare in the Park" celebrated its tenth anniversary in 1996, a testament to Henderson's long-standing support for the arts and cultural programs. The city also boasts the largest recreational facility – the Henderson Multigenerational Facility – in Nevada as well as Nevada's only scenic Bird Preserve. The city supports a variety of other

cultural events, many of which are held at the outdoor amphitheater, the largest one of its kind in Nevada.

### Government

[[edit](#)]

The city received its charter from the **Nevada State Legislature** in 1953, formally incorporating the city with a council/manager form of government.

Henderson is divided into four wards. A mayor and four council members are elected citywide, but no more than one council member are allowed to reside in each ward.

**Lorna Kesterson** was elected as Henderson's first female mayor, serving two terms until 1993.[\[59\]](#)[\[60\]](#)

### 2013 Americans with Disabilities Act settlement

[[edit](#)]

In 2013, the **Department of Justice** (DOJ) announced it had reached a cooperative settlement agreement with the city of Henderson under the **Americans with Disabilities Act** (ADA). The DOJ received complaints by individuals who are deaf that officers for the city of Henderson did not provide them with qualified sign language interpreters and other auxiliary aids and services when needed for effective communication. One of the complainants was arrested and detained for two days in the Henderson **detention facility**, while the other was an alleged **crime victim**.<sup>[61]</sup>

During its investigation into the allegations, the department inquired whether the city of Henderson would be interested in resolving the matter voluntarily. The city expressed its full commitment to ensure compliance with the ADA. Under the settlement, the city of Henderson will pay \$35,000 to the complainants. The city agreed to provide **sign language** interpreters, usually within an hour of a person's request to law enforcement officers. Henderson also agreed to modify its handcuffing policies for people who use sign language or hand writing to communicate, and to adopt other policies consistent with the ADA.<sup>[61]</sup>

## Education

[[edit](#)]

The **Clark County School District** provides elementary and secondary public education. Henderson is the location for 29 elementary schools, nine middle schools, and nine high schools. Five of the nine high schools are public schools, including **Basic**, **Coronado**, **Green Valley**, **Foothill**, and **Liberty**. The remaining four are private college preparatory schools, including the **Henderson International School**. A tenth high school, **Silverado High School**, also serves parts of Henderson but is in unincorporated **Clark County**.

## Findlay College Prep

[[edit](#)]

Main article: **Findlay Prep**

Findlay Prep was a **high school basketball** program sponsored by the Henderson International School. Henderson International School – a private preparatory school owned by **Meritas** – hosted **Findlay College Prep**. Since its creation in 2006 by businessman Cliff Findlay, its dozen students comprised the school's only high school students.<sup>[62]</sup>

## Colleges and universities

[[edit](#)]

Henderson is home to **Nevada State University**, a member of the **Nevada System of Higher Education**, and has a satellite campus of the College of Southern Nevada. It also has campuses for private institutions of higher education including the **Roseman University of Health Sciences**, **Touro University**, and **DeVry University**.

Several for-profit colleges also operate in the city, including **The Art Institute of Las Vegas** and **Everest College**.

## Media

## Newspapers

[[edit](#)]

- ***Las Vegas Review-Journal***
- ***Las Vegas Sun***
- *Green Valley View*
- *The Henderson Press*

## Television

[[edit](#)]

**KVVU-TV** (channel 5) is the Las Vegas Valley's **Fox** affiliate and licensed to Henderson, and is based from studios on the northwest side of the city.

## Film history

[[edit](#)]

- The documentary *Real CSI* featured the Henderson Police Department (HPD) Crime Scene Analysts/Investigators.
- The 1998 film ***Lethal Weapon 4*** used **Interstate 215** as a filming location.<sup>[63]</sup>
- A scene in the **James Bond** film ***Diamonds Are Forever*** in which Bond (**Sean Connery**) is nearly cremated alive was filmed at Palm Mortuary's Henderson location.<sup>[64]</sup><sup>[65]</sup>
- ***America's Sweethearts***, starring **Julia Roberts** and **John Cusack**, featured many scenes filmed at Lake Las Vegas.<sup>[66]</sup>
- ***Paranormal Activity 4*** takes place at the home of a wealthy family in Henderson, but was filmed in California.<sup>[67]</sup>

## Infrastructure

[[edit](#)]

## Transportation

[[edit](#)]

The city is served by **RTC Transit** (formerly Citizens Area Transit/CAT) with its network of bus routes which run throughout the **Las Vegas Valley**.

Henderson is served by four major highways: Henderson Black Hills and (**State Route 582**), which is the main thoroughfare connecting with Las Vegas and **Boulder City**; **Lake Mead Parkway (State Route 564)**; **Interstate 11** and **Interstate 215**. **State Route 146**, also known as Saint Rose Parkway, connects **Interstate 15** near **Sloan** with Interstate 215 in Green Valley. This stretch is formally a part of Lake Mead Parkway which is a direct link to Henderson for motorists traveling in and out of **Southern California**.

The city of Henderson has a low percentage of households without a car. In 2015, 2.8 percent of Henderson households lacked a car, and increased to 5 percent in 2016. The national average was 8.7 percent in 2016. Henderson averaged 1.74 cars per household in 2016, compared to a national average of 1.8.<sup>[68]</sup>

Henderson is home for the **Henderson Executive Airport**. The main airport for the metropolitan area is **Harry Reid International Airport**, northwest of Henderson.

Street numbering is different within the city of Henderson than with the rest of the Las Vegas Valley. The center of Henderson lies within the intersection of Water Street and Lake Mead Parkway. The Henderson Police Department for years referred to Lake Mead Parkway (and its former name Lake Mead Drive) as "146", while Boulder Highway is often referred as "93", its former highway designation.

The **Union Pacific Railroad** serves Henderson over a branch line originally built to support construction of **Hoover Dam**. The final few miles of the line, owned by the U.S. Government, were abandoned after the dam was completed. The line still extends to **Boulder City**; in 1985, the state purchased the section east of approximately **I-11**, with the **Nevada Southern Railroad Museum** operating excursion trains over the easternmost seven miles (11 km).

## Public safety

[[edit](#)]

Fire prevention services are provided by the **Henderson Fire Department** and police services by the **Henderson Police Department**.

**Paradise** is an **unincorporated town**<sup>[2]</sup> and **census-designated place** (CDP) in **Clark County, Nevada**, United States, adjacent to the city of **Las Vegas**. It was formed on December 8, 1950. Its population was 191,238 at the 2020 census, making it the fifth-most-populous CDP in the United States; if it were an incorporated city, it would be the fifth-largest in Nevada.<sup>[3]</sup> As an unincorporated town, it is governed by the **Clark County Commission** with input from the Paradise Town Advisory Board.

Paradise contains **Harry Reid International Airport**, the **University of Nevada, Las Vegas** (UNLV), the majority of the **Las Vegas Strip**, and most of the tourist attractions in the Las Vegas area (excluding **downtown**). However, all Paradise addresses, as well as other unincorporated areas in the **Las Vegas Valley**, have "Las Vegas" addresses.<sup>[4]</sup>

## History

**[edit]**

The southern part of the **Las Vegas Valley** was referred to as Paradise Valley as early as 1910, owing to a high **water table** that made the land particularly fertile for farming.<sup>[5][6]</sup> County commissioners established a Paradise school district in 1914.<sup>[7]</sup>

Neighborhoods on the east side of Paradise

In 1950, mayor Ernie Cragin of Las Vegas sought to annex the **Las Vegas Strip**, which was unincorporated territory, in order to expand the city's tax base to fund his ambitious building agenda and pay down the city's rising debt.<sup>[8]</sup> A group of casino executives, led by **Gus Greenbaum** of the **Flamingo**, lobbied the county commissioners for town status, which would prevent the city from annexing the land without the commission's approval.<sup>[8]</sup> The commission

voted to create the unincorporated town of Paradise on December 8, 1950.<sup>[9][10]</sup> The town encompassed a strip one mile (1.6 km) wide and four miles (6.4 km) long, from the southern city limits of Las Vegas to just south of the Flamingo.<sup>[10]</sup> The town board initially consisted of five casino managers, chaired by Greenbaum.<sup>[10][11]</sup>

A month after its establishment, the town was expanded to include the residential areas of Paradise Valley, giving it a total area of 54 square miles (140 km<sup>2</sup>).<sup>[11]</sup> Months later, however, it was reported that county officials had determined that the town had not been properly established, because the petition for the town's formation had an insufficient number of signatures and because it had violated a state law forbidding formation of a town spanning multiple school districts.<sup>[12]</sup> On August 20, 1951, county commissioners accepted petitions to create two new towns covering the area of the putative town.<sup>[13]</sup> Town "A" of Paradise included the areas that lay within a Las Vegas school district, extending from the city limits to a point one mile south, while Town "B" included the areas within the Paradise school district.<sup>[12]</sup>

In 1953, Town A was renamed as **Winchester**, and Town B became known simply as Paradise.<sup>[14]</sup>

In 1975, Nevada enacted a law that would have incorporated Paradise (along with **Sunrise Manor** and Winchester) into the City of Las Vegas.<sup>[15]</sup> Before it could take effect, however, the bill was struck down as unconstitutional by the **Nevada Supreme Court**.<sup>[16][17]</sup>

## Geography

<sup>[**edit**]</sup>

According to the **United States Census Bureau**, the **census-designated place** (CDP) of Paradise (which may not coincide exactly with the town boundaries) has a total area of 46.7 square miles (121 km<sup>2</sup>), all of it land.

The official town boundaries are bordered by **Desert Inn Road** to the north, **Nellis Boulevard** to the east, **Sunset Road** to the south and **Decatur Boulevard** to the west. There is a southern finger between Bermuda Road and **Eastern Avenue** south to Silverado Ranch Boulevard. South of **Russell Road**, the eastern border stairsteps on a rough 45-degree angle toward the corner of Eastern and Robindale Road, and there is an additional finger surrounding **Interstate 215** east to **St. Rose Parkway**.<sup>[18]</sup>

At the **census** of 2010,[20] there were 223,167 people residing in Paradise. The racial makeup was 59.8% **White**, 10.0% **African American**, 0.8% **Native American**, 9.5% **Asian**, 1.0% **Pacific Islander**, and 5.5% from two or more races. **Hispanic** or **Latino** residents made up 31.2% of the population, and 46.3% of the population was **non-Hispanic White**.

As of the **census**[21] of 2000, there were 186,070 people, 77,209 households, and 43,314 families residing in the CDP. The population density was 3,947.3 inhabitants per square mile (1,524.1/km<sup>2</sup>). There were 85,398 housing units at an average density of 1,811.6 per square mile (699.5/km<sup>2</sup>). The racial makeup of the CDP was 72.51% **White**, 6.59% **African American**, 0.77% **Native American**, 6.52% **Asian**, 0.59% **Pacific Islander**, 8.37% from **other races**, and 4.65% from two or more races. **Hispanic** or **Latino** of any race were 23.47% of the population.

There were 77,209 households, out of which 24.6% had children under the age of 18 living with them, 39.7% were **married couples** living together, 10.5% had a female householder with no husband present, and 43.9% were non-families. 31.9% of all households were made up of individuals, and 7.5% had someone living alone who was 65 years of age or older. The average household size was 2.39 and the average family size was 3.04.

In the CDP, 21.2% was under the age of 18, 10.8% from 18 to 24, 33.3% from 25 to 44, 23.6% from 45 to 64, and 11.1% was 65 years of age or older. The median age was 35 years. For every 100 females, there were 109.1 males. For every 100 females age 18 and over, there were 110.0 males.

The median income for a household in the CDP was \$39,376, and the median income for a family was \$46,578. Males had a median income of \$31,412 versus \$25,898 for females. The **per capita income** for the CDP was \$21,258. 11.8% of the population and 8.1% of families were below the **poverty line**. 15.3% of those under the age of 18 and 7.6% of those 65 and older were living below the poverty line.

**Central Park** in **Manhattan**, the first landscaped **urban park** in the United States

**Landscape design** is an independent profession and a design and art tradition, practiced by landscape designers, combining **nature** and **culture**. In contemporary practice, landscape design bridges the space between **landscape architecture** and **garden design**.<sup>[1]</sup>

## Design scope

**[edit]**

Landscape design focuses on both the integrated master **landscape planning** of a property and the specific **garden design** of landscape elements and plants within it. The practical, **aesthetic**, **horticultural**, and environmental **sustainability** are also components of landscape design, which is often divided into **hardscape** design and **softscape** design. Landscape designers often collaborate with related disciplines such as **architecture**, **civil engineering**, **surveying**, **landscape contracting**, and artisan specialties.

Design projects may involve two different professional roles: landscape design and landscape architecture.

- Landscape design typically involves artistic composition and artisanship, horticultural finesse and expertise, and emphasis on detailed site involvement from conceptual stages through to final construction.
- Landscape architecture focuses more on urban planning, city and regional parks, civic and corporate landscapes, large scale interdisciplinary projects, and delegation to contractors after completing designs.

There can be a significant overlap of talent and skill between the two roles, depending on the education, licensing, and experience of the professional. Both landscape designers and landscape architects practice landscape design. **[2]**

## Design approach

**[edit]**

The landscape design phase consists of research, gathering ideas, and setting a plan. Design factors include objective qualities such as: climate and microclimates; topography and orientation, site drainage and **groundwater recharge**; municipal and resource building codes; soils and irrigation; human and vehicular access and circulation; recreational amenities (i.e., sports and water); furnishings and lighting; **native plant** habitat botany when present; property safety and security; **construction detailing**; and other measurable considerations.

Design factors also include subjective qualities such as **genius loci** (the special site qualities to emphasize); client's needs and preferences; desirable plants and elements to retain on site, modify, or replace, and that may be available for **borrowed scenery** from beyond; artistic

composition from perspectives of both looking upon and observing from within; spatial development and definition – using lines, sense of scale, and balance and symmetry; plant palettes; and artistic **focal points** for enjoyment. There are innumerable other design factors and considerations brought to the complex process of designing a garden that is beautiful, well-functioning, and that thrives over time.

The up-and-coming practice of online landscape design allows professional landscapers to remotely design and plan sites through manipulation of two-dimensional images without ever physically visiting the location. Due to the frequent lack of non-visual, supplementary data such as soil assessments and pH tests, online landscaping necessarily must focus on incorporating only plants which are tolerant across many diverse soil conditions.

## Training

[**edit**]

**André Le Nôtre**

Historically, landscape designers trained by apprenticing—such as **André Le Nôtre**, who apprenticed with his father before designing the **Gardens of Versailles**—to accomplished masters in the field, with the titular name varying and reputation paramount for a career. The professional section of garden designers in Europe and the Americas went by the name "Landscape Gardener". In the 1890s, the distinct classification of **landscape architect** was created, with educational and licensing test requirements for using the title legally. **Beatrix Farrand**, the sole woman in the founding group, refused the title preferring Landscape Gardener. Matching the client and technical needs of a project, and the appropriate practitioner with talent, legal qualifications, and experienced skills, surmounts title nomenclature. [**citation needed**]

Institutional education in landscape design appeared in the early 20th century. Over time it became available at various levels. Ornamental horticulture programs with design components are offered at community college and universities within **schools of agriculture** or horticulture, with some beginning to offer garden or landscape design certificates and degrees. Departments of landscape architecture are located within university schools of architecture or

**environmental design**, with undergraduate and graduate degrees offered. Specialties and minors are available in horticultural botany, **horticulture**, **natural resources**, **landscape engineering**, **construction management**, **fine** and **applied arts**, and **landscape design history**. Traditionally, hand-drawn drawings documented the design and position of features for construction, but **Landscape design software** is frequently used now.<sup>[***citation needed***]</sup>

Other routes of training are through informal apprenticeships with practicing landscape designers, landscape architects, landscape contractors, gardeners, nurseries and garden centers, and docent programs at botanical and public gardens. Since the landscape designer title does not have a college degree or licensing requirements to be used, there is a very wide range of sophistication, aesthetic talent, technical expertise, and specialty strengths to be responsibly matched with specific client and project requirements.<sup>[***citation needed***]</sup>

## Gardening

[***edit***]

Many landscape designers have an interest and involvement with **gardening**, personally or professionally. Gardens are dynamic and not static after construction and planting are completed, and so in some ways are "never done". Involvement with **landscape management** and direction of the ongoing garden direction, evolution, and care depend on the professional's and client's needs and inclinations. As with the other interrelated landscape disciplines, there can be an overlap of services offered under the titles of landscape designer or professional gardener.<sup>[**2**]</sup>

Quality Work! Friendly and respectful individuals in all my interactions throughout the project. I had my yard renovated with new artificial turf, decorative rocks, and a few trees. It looks beautiful and everything was completed in a timely and efficient manner. Highly recommended (if it is in your budget).

Workers were great, no problem they did what was required, but the representative of your company mislead me on what was to be done, I showed pictures from a competitor landscaper, representative stated he could bet there , , . price, but since it wasn't in contract, I was left with uncomplicated backyard , working with owner at present, so he's been outstanding working on this situation, as amount of rock was way off and the owner did increase the amount substantially to finish the front yard. another landscaper under contract to finish the backyard. Would like to add a comment the manger/owner of Las Vegas yard n block stands behind his words and helped me tremendously on finishing up the backyard,

My initial contact was with Ray, whom did an excellent job giving me an estimate on what I wanted done in my small yard and walkway., the guys that came out and did the work were superior. They did an excellent job. I'm very pleased with this company. I will highly recommend them to family and friends, and I will be using them in the near future for other little projects.

Eric and team did an amazing job. They worked with me for months while I got HOA approval for the project. Once they began working they were great, going over everything in detail and making sure things were perfect. This project included wall repair, stucco and paint repair, paver and turf installation. Extremely satisfied with this experience.

We recently had a very positive experience with Rock N Block for our fence replacement. The entire process went smoothly and exceeded our expectations. Harvey and his team were incredibly professional and communicative throughout the project providing much-needed assurance and peace of mind. The crew was punctual and maintained a diligent and respectful attitude that made the experience pleasant. The crew finished the project ahead of schedule, and the quality of their work is impressive; our new wall looks great! We recommend Rock N Block for any fencing needs and look forward to working with them again. Thank you, Harvey and crew, for a job well done!
